Re: Green Beetle Quarry Right-of-Way

Dear Mr. Johnson:

We are prepared to issue a right-of-way to you for the Green Beetle landscape rock quarry, access road, waste rock and processing area, on BLM administered public surface in the Rosebud area of western Box Elder County, Utah, serial number U-81125. This right-of-way is only for operation in an existing 1.1 acre unreclaimed quarry, joint use of the existing milling and processing area under BLM permit (UTU-72455) to Bonneville Quarries of Bountiful, Utah, and an access road.

Prior to issuing the right-of-way, however, we need to have a signed statement from Bonneville Stone Quarries indicating their agreement with your joint use of the milling and processing area under their permit as was requested in our letter of October 20, 2005. We will hold the issuance of the right-of-way until we receive this statement.

If you no longer wish to use this milling and processing area or are unable to get such a statement from Bonneville Stone Quarries, please inform us as soon as possible of your alternative for a milling and processing area.

If you have any questions, please contact me at (801) 977-4355.

Sincerely,

Michael G. Nelson
